Cyber savvy top tip

Lock your device!

Get in the habit of locking your device (Windows PC/Laptop or iMac/MacBook) when unattended – this also counts as good GDPR practice too. Smartphones and tablets/iPads should be secured with a screen lock, this offers your devices that important extra layer of security, protecting data held on them

Share your feedback: diversity events

Next week (15 - 19 January) we will be hosting a feedback station in the Junction. We are asking you to join us to informally share your thoughts about the events and themed weeks we host to celebrate the diversity of our College community.

We want to know how we can develop these, and what other events and opportunities you would like to see in our annual calendar. Following the popularity of last year's World Culture Day, we will also be sharing our plans for what this will involve in 2024 and asking for your input into what extra activities this might involve!

You can simply pop by and have a chat to us, or if you prefer, complete a short form. Don't miss the opportunity to share your views, and help us make these events even better!
