

## THE VOTES ARE IN: CLASS OF 2024

The votes are in regarding a choice of hoodie/ t-shirt or both for our Class of 2024. 412 votes were received in total, and overwhelmingly you opted for a Class of 2024 hoodie - see the graphic below!

We will now be working with our suppliers to secure the best possible price for you, and we will release further information and a link to purchase (directly from our suppliers) on our return from the Easter break.

## Making a submission to your eYearbook

As outlined previously, we'll also be producing a special eYearbook for our Class of 2024. This will contain messages from your teachers, fellow students and photos from your time at HNC. We're asking all of our Year 13 students to share their memories and photos by emailing [news@huddnewcoll.ac.uk](mailto:news@huddnewcoll.ac.uk). Please ensure any messages are appropriate for general publication, and by submitting a photo we presume you have the consent of all featured.

@huddnewcoll

## Play your part in solving the problem with plastic

Next week is the national Big Plastic Count. During this week thousands of schools, households and organisations up and down the UK will be coming together to count their plastic waste and discuss the part they can play in solving the problem with plastic.

HNC is working to become a greener College, and is encouraging everyone to get involved, by keeping a tally of your plastic waste. The results of this will be shared with the Big Plastic Count, who will then work out how much plastic waste is leaving UK households, the type of plastic being thrown away and help them identify what really happens to different types of packaging after it's disposed of.

As a College we will also be calculating our plastic waste footprint. On Tuesday (12 March) you can join us in the Junction to talk about all things plastic. Here you can also find out more about the College's student Green Group, who are leading the way in helping us to become a greener HNC!

We have created an editable PDF that you can use to complete your tally. These can be returned via email to [c.coupland@huddnewcoll.ac.uk](mailto:c.coupland@huddnewcoll.ac.uk) or dropped off at Reception. Find out more and access the tally sheet here: <https://tinyurl.com/nafsmu9a>

## CYBER SAVVY TOP TIP

GDPR is a law that affects us all, and even more so when you enter the workplace where you are likely to be working with personal details and sensitive data. It is therefore a good idea to develop good habits now - we encourage students to consider the personal data being shared, and think before you send files which might contain personal details or other sensitive information. Make sure you ask yourself if it is something that should be shared, and make sure if it is, you ensure any sharing is undertaken securely e.g. by using a password.

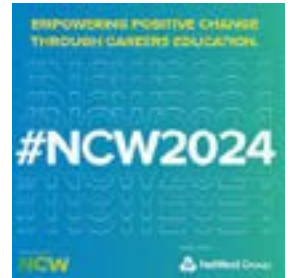

## Are you observing Ramadan?

While you are likely to have your own system in place for your prayer times, you may wish to take a look at this free app that has been shared with us by a member of staff which provides a summary of times. Please remember that the FACC is open  
Monday-Thursday: 12:00-16:30  
Friday: 12:00-15:45

Please do not request to leave lessons early as teachers have been asked to ensure all students can access all teaching and learning activities.

Available on the App Store / Available on Google Play

Don't forget that that today we have our second event for NCW! Join us in the Junction 10am - 1.15pm
